Migun Means Beautiful Health 1-888-660-5948

More than a massage.

It's Beautiful Health.

Nothing else like it in the world.

Established in 1988

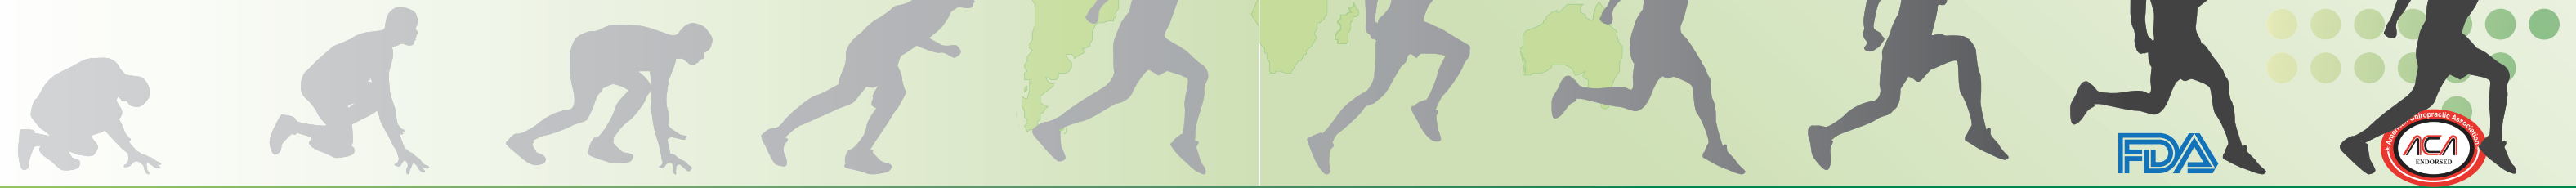

Migun Medical Instruments, Co., Ltd. was established in 1988 in South Korea with the goal of developing and manufacturing the best thermal massage products in the world. After many years of clinical studies and research at renowned Oriental Medicine schools in Korea, China, and the U.S., Migun introduced its first thermal massage product, the HY-200 Personal Thermal Physiotherapeutics in 1993. The reaction was nothing short of spectacular. Since then, Migun has continued its public quest to be the best. This spirit of innovation and collaboration is what drives us to bring you and your loved ones the finest product.

Migun has received numerous awards for its industry-leading innovations.

In 1998, Migun Medical Instrument Co., Ltd. entered the U.S. market as Migun USA Corp., bringing the amazing therapeutic benefits of its Thermal Massage System to Americans for the first time. Since then, our demonstration centers have expanded throughout the U.S. with more on the way. In addition to the United States, you can find Migun demonstration centers in Argentina, Australia, Brazil, Canada, Chile, Costa Rica, Croatia, Ecuador, Egypt, France, Germany, Hungary, Indonesia, Kingdom of Saudi Arabia, Korea, Kuwait, Lebanon, Malaysia, Mexico, New Zealand, Panama, Philippines, Puerto Rico, Singapore, Spain, Switzerland, Syria, South Africa, Taiwan, Thailand, Turkey, Ukraine, Vietnam, and Yemen.

The word is out.

Migun in the media

Migun has been recognized in the media repeatedly throughout its history. The recognition has come from many different stations all round the country including FOX, CBS, and NBC. The stories have been on various Migun demonstration centers across the U.S., and the pieces have been done in a range of formats, even incorporating doctors to test the effects of the Migun bed. Yet, despite the diverse media attention there has been the common thread of Migun's quality products improving people's health.

“We had three volunteers try out the bed for a month. A doctor tested them before and after. As a result, everyone's cholesterol dropped. After using the bed, the volunteers feel more relaxed, are getting better sleep and are even more energized throughout the day.”
CBS 5 Charleston, SC

“University of Irvine's Anatomy and Neurobiology Department says it's like having a chiropractor, neurologist, and acupressurist all rolled into one.”
Fox 11 San Fernando, CA

“It's warm and pulsating; a super charged massage bed that goes far beyond relieving aches and pains. And there are claims it can also help people lose weight, sleep better and reduce stress.”
NBC 3 Cleveland, OH

Easy Maintenance

08

Like all of our models, you can expect many years of smooth, trouble-free use. Every massage you experience is easy, efficient, and effortless.

It's the best in the West and the East.

Synergy

The Migun Thermal Massage Bed uniquely integrates thousands of years of traditional Eastern medical wisdom with the technological advancements of Western medicine to provide you with an unforgettable massage. Simply lie back and relax and let Migun do the work for you. Each experience utilizes the principles similar to acupressure, acupuncture, moxibustion, far infrared rays, and chiropractic to replenish your strength and clarity.

Eastern Medicine

Traditional Eastern medicine has discovered that particular points on the body are connected and correspond to various organs. The majority of these pressure points are located near the spine. Grounded in the principle that good health depends on the proper flow of a vital life energy called Chi (Qi), the stimulation to specific body points recharges life force while returning proper balance.

Migun principles:

Acupuncture Inspired

Stimulates specific points of the body to revive proper flow, recharge life force (chi), and return proper balance.

Acupressure Inspired

Uses your own body weight to temporarily block chi circulation. This release jump-starts your chi flow while flushing out toxins and stress.

Heat Therapy

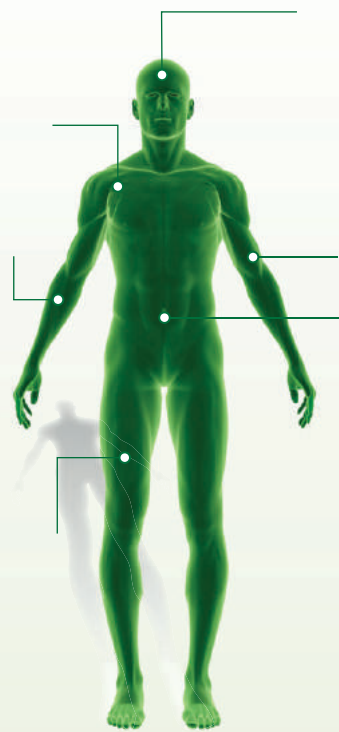

Boosts the performance of tissue cells, encourages muscle relaxation, and relieves discomfort while releasing pollutants using natural Far Infrared Rays.

Chiropractic Inspired

Restores structural integrity, relieves nerve interference, and helps to gently realign the vertebrae with its internationally patented technology.

Massage

Eases chronic pain, speeds up recovery from many sports related injuries, makes muscles more agile, improves concentration, and restores clarity.

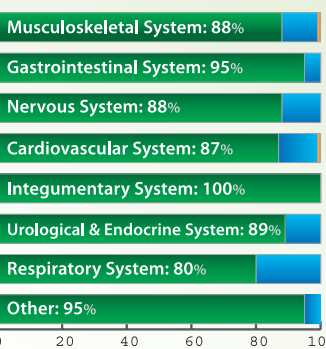

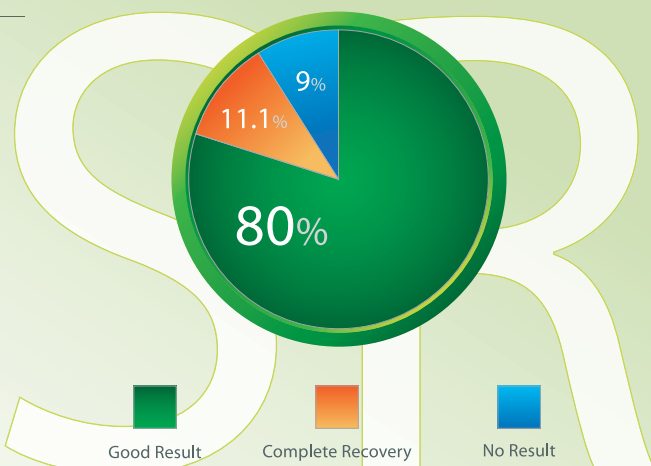

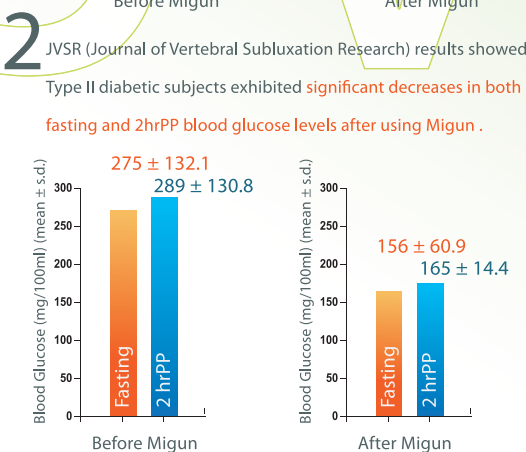

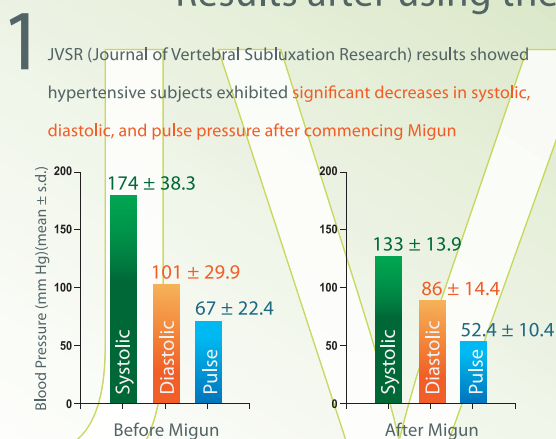

It's been clinically researched, tested and proven.

Beautiful Health

Ongoing clinical studies at the *University of California, Irvine*, have established the full range of health benefits created by Migun's unique process. These clinical study results show significant change and positive effects in the overall physical health of users including the musculoskeletal, gastrointestinal, nervous, and cardiovascular systems. There has also been marked improvement in the conditions of Hypertension and Type II Diabetes.

Results after using the Migun Thermal Massage Bed

Good Result No Result

Additionally, university research has been published in a scientific journal of leading chiropractors, which in turn has brought even more professional medical interest and attention to Migun

(Source: J. Vertebral Subluxation, 2003) *The Claims and results have not been examined or reviewed by the FDA.

Far Infrared Rays

Moxibustion is an Eastern medical treatment where heat is applied to specific acupuncture points. Migun's enhanced heat treatment stimulates and encourages better blood circulation and the extensibility of soft tissues. It also boosts the performance of tissue cells, encourages muscle relaxation, and relieves discomfort while releasing pollutants. Migun's extraordinary approach also produces far infrared rays. These rays effectively deliver heat deep into the body as much as 7 centimeters deep. **Natural Jade Stone** - For thousands of years, jade has been known as a mysterious healing stone in Eastern Medicine. Royal families across Asia treasured jade for its miraculous effects on the human body. Western Medicine also greatly admires the jade for its calcium and magnesium mineral deposits that are known to be anti-aging factors.

Far Infrared Rays
